CANADIAN TRAVEL BUREAU

This week's issue contains an advertisement for the newly formed "Canadian Travel Bureau" whose purpose is to bring to the fore the opportunities for real holiday trips throughout Canada, not only for citizens of foreign countries, but for our own Canadian people.

Canada's tourist trade is the largest single industry in the country and in order to retain this position and increase the trade the bureau has seen fit to advertise the possibilities of the country both at home and abroad. Early this fall United States periodicals were used largely as a means of making known Canada's possibilities for winter holidays, inviting the citizens of that country to spend a few weeks in the northland in search of game trophies and other pleasures.

To further intrigue the youths and fill them with happy recollections, so that they will make known their joyful trip to Canada and probably return again, the newly formed bureau is endeavoring to instill in the minds of our citizens, through advertising, the necessity of being courteous and pleasant at all times to our visitors. Hon. R.J. Manion, Minister of Railways and Canada, does not hesitate to ask the people of the nation to respect our tourists and in the advertisement in question he is straightforward in his statements.

We urge our readers to read this

advertising and follow its principles. Canada is indeed a land of many vacation opportunities and as our greatest industry, the tourist trade must be respected if we expect it to continue and flourish.

PREPARING FOR CHRISTMAS

This week we enter the month of December, and the fact cannot be longer be put aside that Christmas is setting very close. It is undoubtedly a time of worry and a great deal of work.

One of the most troublesome questions is that of selecting and sending presents. If people would only start about the securing of their gifts in time it would be a great deal easier.

Counter Check Books

ASK FOR PRICES

The Chronicle

—easier for the purchaser and infinitely easier for the business people. Christmas goods can be secured right now, just as easily as two weeks from now. Buy a little at a time and wrap the gifts up. You can even put the greetings inside, address the packages and put them away—and when Christmas comes and there are so many forgotten things to do there will be a whole lot off your mind.

Working yourself to death, and working the store clerks off their feet around Christmas-time might be avoided if the Christmas present question was as carefully arranged as business questions.—Ed.

WHAT MR. BENNETT DID NOT SEE

(The Calgary Albertan)

The Prime Minister can generally be relied upon to say the unusual thing and he was true to form when he told Winnipeg newspaper interviewers that he saw no signs of distress in Calgary. "Until I read the newspapers." And as Mr. Bennett never believes anything he reads in any newspaper, therefore no doubt he missed the fact that there is no distress in Calgary.

That a Prime Minister can go about the country and into his own constituency without with his eyes so completely closed that he does not see what is going on around him is almost unbelievable. He could not have walked along Ninth Avenue and heard plaintive appeals by hungry men. We read that he was interested in the civic elections but he could not have inquired about the number of families on relief nor could he have heard that the taxpayers are groaning under a burden of taxation to relieve the distress of which Mr. Bennett says he saw no sign. He could not have talked with men and wives trying to keep body and soul together on less than \$30 a month. He could not have seen families of four and five and six crowded into two rooms or seen shopkeepers who work for \$9 (or even less) with none too much assurance of permanent buying from their own measure wages medicines and comforts for a sick sister. He could not have examined the record of homes that are being forfeited or abandoned because of the high tax cost of unemployment relief. He could not have visited the employment offices and seen hundreds of men and women who gather there daily always in the hope of finding

work and a wage but to whom almost is usually the close of another day of heart sickening disappointment.

These are only few instances of the things the Prime Minister did not see. There are lots of others. Oh, yes... and he told his interviewers that the Conservative party is still strong in the West. If Mr. Bennett can be so unobservant of material things he may also be mistaken respecting such an abstract thing as a political hope.

"Happiness," declared the philosopher, "is the pursuit of something not the catching of it."

"Have you ever," interrupted the plain citizen, "chased the lead car on a rainy night?"

BANK OF MONTREAL

Established 1817

A presentation, in easily understandable form,
of the Bank's

ANNUAL STATEMENT

31st October, 1934

LIABILITIES TO THE PUBLIC	
Deposits	\$630,218,835.10
Payable on demand and after notice.	
Notes of the Bank in Circulation	35,255,876.00
Payable on demand.	
Bills Payable	185,183.19
Time drafts issued and outstanding.	
Letters of Credit Outstanding	6,522,749.56
Financial responsibilities, undertaken on behalf of customers (see offsetting amount [x] in "Reserves").	
Other Liabilities to the Public	10,386,724.55
Items which do not come under the foregoing heading, including \$9,000,000 advances from the Dominion Government under the Finance Act.	
Total Liabilities to the Public	\$682,569,368.40
LIABILITIES TO THE SHAREHOLDERS	
Capital, Surplus and Undivided Profits	
Reserves for Dividends	76,538,810.08
This amount represents the shareholders' interest in the Bank, over which liabilities to the public take precedence.	
Total Liabilities	\$759,108,178.48

RESOURCES

To meet the foregoing Liabilities the Bank has	
Cash in its Vaults and in the Central Gold Reserves	\$ 87,210,888.26
Notes of and Cheques on Other Banks	28,670,917.74
Payable in full on presentation	
Money on Deposit with Other Banks	16,764,669.62
Available on demand or at short notice.	
Government and Other Bonds and Debentures	317,936,912.23
Not exceeding market value. The greater portion consists of gilt-edged securities which mature at early dates.	
Stocks	103,789.95
Railways and Industrial and other stocks. Not exceeding market value.	
Call Loans outside of Canada	32,133,844.20
Secured by bonds, stocks and other negotiable securities of greater value than the loans and representing money quickly available with no disturbing effect on condition in Canada.	
Call Loans in Canada	8,399,657.67
Payable on demand and secured by bonds and stocks of greater value than the loans.	
Bankers' Acceptances	26,528.08
Prime drafts accepted by other banks.	
TOTAL OF QUICKLY AVAILABLE RESOURCES	\$491,247,207.75
(equal to 71.97% of all Liabilities to the Public)	
Other Loans	243,477,041.21
To manufacturers, farmers, merchants and others, on conditions consistent with sound banking.	
Bank Premises	14,500,000.00
These properties only are carried in the names of holding companies, the land and bonds of these companies are entirely owned by the Bank and appear on the books at \$150 in each case. All other of the Bank's premises, the value of which largely exceeds \$14,500,000, appear under this heading.	
Real Estate, and Mortgages on Real Estate Sold by the Bank	1,487,975.10
Acquired in the course of the Bank's business and in process of being realized upon.	
x Customers' Liability under Letters of Credit	6,522,749.56
Representing liabilities of customers on account of Letters of Credit issued by the Bank for their account.	
Other Assets not included in the Forgoing	1,873,204.86
Making Total Assets of	\$759,108,178.48
to meet payment of Liabilities to the Public of	
leaving an excess of Assets over Liabilities to the Public of	\$ 76,538,810.08

NEW OR RENEWAL THE CARBON CHRONICLE

DOMINION TO CONTINUE WITH RELIEF PAYMENTS

Ottawa, Ont. Dominion contribution to direct relief in municipalities of Saskatchewan, Manitoba and Alberta will continue at 33 1/3 per cent to December 31, under new agreements with the provinces, it was learned tonight.

In unorganized districts, the Dominion will continue to the end of the year to pay 50 per cent of the cost of direct relief.

The contribution of the Dominion of the total cost of caring for single unemployed men up to a maximum of 40 cents per diem will be maintained. The back-to-the-land assistance policy is to be continued.

The agreement with the three prairie provinces will be drafted very much along the lines of the relief agreements which expired on March 31. The documents will shortly be submitted to the respective governments for signature.

Conferences between members of the Dominion government and western ministers have been under way for the past few days on the subject, Hon. M. A. Macpherson, Attorney-General and Provincial Treasurer for Saskatchewan; Hon. J. E. Brownell, Alberta Premier; Hon. W. J. Major and Hon. W. D. Clark, of the Manitoba Government represented the prairie provinces.

The whole situation of unemployment and relief was discussed in a series of conferences. Every phase of conditions was gone into carefully. Resulting from these parleys, agreement for extension of relief were reached.

Fair Play To All

Radio Commission To Be Impartial

At Election

Ottawa, Eng.—In the event of a general election the Canadian radio broadcasting commission will endeavor to see fair play is given all parties in the use of radio, though no definite regulations have yet been laid down, says Hector Charlesworth, in a letter to the London "Advertiser," replying to a request as to the attitude of the commission in a general election.

While no definite regulations have been laid down, Mr. Charlesworth writes:

"I assume that when the time does arrive we shall adopt the same course as that of the British Broadcasting corporation and Great Britain. In the event of asking parties to arrange among themselves how much time they desire so all may obtain fair play."

The sequence and extent of the B.B.C. campaign broadcasts is a matter of arrangements between the party whips at Westminster.

Manitoba University

Board Of Governors Planning Re-Organization Of Staff

Winnipeg, Man.—In order that they might have a free hand in planning re-organization of the staff, governors of the University of Manitoba have requested resignations of all teachers, and those employed on the administrative and operating staff of the university.

Services of the teaching staff will be terminated at the end of August, and those employed on the operating and administration staffs have been given their notice, effective June 30.

It is understood the government grant this year is insufficient to maintain the university for more than six months, and unless salary reductions and staff re-organizations are made, the institution would be forced to close in six months.

Dean Still Possessible

London, Eng.—Dean Inge, whose gloomy pronouncements have made him world known, thinks England has seen the peak of her power. "I don't want to be other than hopeful about our future," he said, "but I certainly think that as a great power England culminated in the 19th century."

Many From Western Canada

Quebec, Que.—Parties arriving from western Canada and the Pacific coast increased to almost 600 the number of members of the Oxford Group who attended the house party here. The latest came from Vancouver, Calgary, Regina, Edmonton, Winnipeg and parts of Ontario.

W. N. U. 1097

Export Balance

Canada Shows Excess Of Exports

Imports Of Large Figure

Ottawa, Ont.—Canada as an international trading corporation issued a balance sheet for 1932 operations, reporting a net export balance of \$23,000,000. Exclusive of capital movements, it showed an excess of exports over imports of \$72,000,000. Commodity trade alone showed an export balance of nearly \$80,000,000 in the invisible trade column—brought in by exports of wheat, etc.—there was an import balance of \$42,000,000. Deducting net gold exports of \$67,000,000 and the commodity export balance from the invisible import balance left a net export balance of \$23,000,000 for the year.

In net commodity trading, considering deductions for settlers effects and other non-commercial imports, exports totaled \$484,275,000 and imports \$415,560,000.

Considering sale and purchase of securities, maturities and direct investments, the net outflow of capital totaled \$10,000,000 which represented the country's net export balance for the year.

Foreign investments represented an export total of \$150,000,000 and an import total of \$100,000,000. Maturities added \$75,000,000 to the import side of ledger. Direct investments totaled \$2,000,000 leaving the capital outflow at \$23,000,000.

In looking at the figures, the Dominion Bureau of Statistics explained there were wide variations in the total debts and credits, due to the necessity of estimating such items as tourist traffic.

Arctic Murder Trial

Esquimaux In Copemire River District Charged With Killing Native

Edmonton, Alberta.—The first murder trial since his appointment last year as stipendiary magistrate for the Northwest Territory, will be held at the mouth of the Copemire River next month by J. M. Douglas.

In this hearing, an Esquimaux named Ah-Ig-Lak, will be tried on the charge of having killed another native named Arnauk. The crime, said to be an isolated instance of the eternal triangle, was committed a year ago on the mainland, immediately south of King William Island.

According to police reports, the accused is alleged to have committed the crime through fear and jealousy. Arnauk had made improper advances to Ah-Ig-Lak's wife, it was claimed.

Owing to the remoteness of the northern parts, word of the trial only came to some months after it occurred. Then Constable A. S. Wilson set out on his journey, and later he arrested Ah-Ig-Lak, who was a member of the Shernanale Inuit, who are of Alaskan Peninsula.

Mr. Douglas will leave the city on June 13 for the north. He will travel by boat to Fort Norman, at which point he will land an aeroplane for the Great Bear Lake. At that point an aeroplane will continue the flight to Copemire River.

Judge Stubbs Retired

Order-In-Council Is Passed By Ottawa Cabinet

Ottawa, Ont.—Dominion cabinet passed an order-in-council retiring Judge Lewis S. George Stubbs, of Winnipeg. It did not name his successor.

The Ford report found Judge Stubbs guilty of misbehaviour on four separate charges. The order-in-council then says: "The commissioner has made specific findings of misbehaviour within the meaning of section 21 of the Judges act, and that after very careful consideration of these findings and of all the circumstances and considerations appearing from the commissioner's report, the minister (Mr. Cahan) cannot avoid the conclusion that as the commissioner, whose ability and integrity is unquestioned, has found his honor Judge Stubbs, guilty of misbehaviour in office, your excellency-in-council should forthwith give effect to these findings."

Refuses To Arbitrate

Geneva, Switzerland.—League of Nations received a communication from Bolivia, which it was said, concluded non-acceptance of the league's proposal to settle the dispute with Paraguay over the Chaco by sending a commission to establish facts of arbitration.

Great Deal From West Coast

Grand Central, Cal.—Louis has heard from this year's first wheat harvest sent to President Roosevelt and Governor William Murray by air mail.

HEIR TO THRONE DEPLORES POLICY OF ISOLATION

London, Eng.—The Prince of Wales told a distinguished Anglo-American gathering of the Pilgrims Society that the United States and Great Britain are now realizing "a country can prosper in isolation."

"The heir to the throne introduced Robert B. Hingham, United States ambassador to the court of St. James, to the 250 persons. The Prince paid tribute to the "strong lead" the new United States government has taken to end the depression.

The Prince of Wales said recent world conditions had caused "anxiety" and "fear," but he said the United States have renewed confidence and hope."

He plunged into the realms of economics and world affairs in a long address, declaring "in the great catastrophe which has overtaken the world, America is realizing with Great Britain that under the present economic system no country can prosper in isolation."

He talked of the growing independence of nations and said "if the depression can teach us the vice of nationalism, then the great depression itself may prove the opening of a way to the ideal day when there will be no poverty."

The Prince stressed the importance of the disarmament conference and the coming world economic conference, saying the degree of their success may well depend upon the co-operation of the United States and Great Britain.

Mr. Amingham was given an unusually warm welcome when he rose to speak. The guests, including the Archbishop of Canterbury, stood and applauded before drinking Mr. Hingham's health.

Quoting a passage from Mr. Roosevelt's inaugural address—"The only thing we have to fear is itself"—Mr. Hingham said "from the moment that inaugural address went out to the whole listening nation, the sombre clouds of despair began to lift, paralysis of fear was replaced with hope and courage and with uplifted minds and hearts the whole people accepted a leadership, bold, wise, statesmanlike and inspiring."

"What has happened since then is incredible," he continued. "But what perhaps is of more importance to you is the phenomenal recovery which has been made which indefinitely enlarges the influence which the United States has to exert in behalf of world peace and world recovery and also vitally important, the changed attitude on several subjects through the people of the United States through their misfortunes in recent years."

"This change must be understood by anyone who seeks to measure the future of the American government and the American people," he said.

Discussing what he described as a changed attitude of Americans, Mr. Hingham said: "I shall give you one concrete example. For years the majority of American people believed that the higher the tariff, the higher wages and the general level of prosperity in the country would be. Now they have learned the grim lesson that with the highest tariff the country has ever had, more than 13,000,000 people have no wages at all."

"By bitter experience they have

MADE PREMIER

Hon. L. P. D. Tilley, who succeeded

on C. D. Richards as Prime Minister of the New Brunswick Legislature. The Conservatives chose Mr. Tilley to be Premier as Mr. Richards is appointed to the King's Bench Division of the Supreme Court of New Brunswick.

He learned how unfounded this tariff doctrine is. It has learned how impossible it is to continue selling when they do not buy and they at last are prepared, through proper agreement, to lower tariff barriers so that international trade may begin to move again.

Mr. Hingham summed up the Roosevelt administration's foreign policy as that of "a good neighbor." He declared the message recently delivered in Geneva regarding neutrality "marked a definite departure from certain principles maintained by the United States since the nation was founded."

"It is a great step forward towards maintenance of the peace of the world," he asserted. "It does contain a reservation similar to the one contained in the Locarno Treaty. But, from my standpoint, it is not believe there is a 10-year-old child of average intelligence anywhere in the world who could fail, in event of war, to select instantly the aggressor."

"I do not now speak to you pessimistically," Mr. Hingham went on. "This is not time for pessimism but for faith and courage. But I am convinced our civilization is trembling in the balance. I do believe another general war will certainly destroy it."

"Moreover, I believe that civilization is lifted soon. In this, the great crisis in human history, I repeat I believe the foundation of hope of our world lies in while-when concerted action between Great Britain, the great self-governing British Commonwealth, and the United States."

Truce Has Been Signed

Combatants Arrange Formal Armistice In North China Warfare

Shanghai, China.—A formal armistice in the North China warfare has been signed by military representatives of China and Japan at Tangku. The truce provides first for the demilitarization of the area bounded by the Great Wall on the north, the Peiping-Mukden Railway on the east, and the Peiping-Suiyuan Railway on the west. Second, the dissolution of the Chinese volunteer corps in this area; third, the resumption of rail traffic between Peiping and Shanghai.

"EVERY NICE GIRL LOVES A SAILOR"

Raymond, Ont.—The success of the wheat restriction agreement, which is seen in the announcement from Sydney that Australia will not participate in an accord to limit acreage, failed to disturb the hopeful attitude of the delegates.

Stanley M. Bruce, the Australian High Commissioner, announced at the first formal session of the four-power conference that his government could not participate in a proposed international scheme for limiting production of the cereal.

The United States delegates are understood to take the view that Australia is bargaining for an arrangement whereby that country would not have to restrict production as drastically as Canada and the United States.

The harmony between Argentine and the other great wheat-growing countries, which developed at Geneva in the earlier discussions, became more apparent here as the Argentine spokesmen expressed a willingness to co-operate to the fullest extent in solving the question of world grain surplus.

Lord Beatty, Admiral of the British Fleet, was photographed above at the expressed interest in the dresses of the ladies who will take part in the colorful Greenwich Night Pageant held by the British Royal Naval College in June. The ladies are dressed in costumes of the early eighties.

World Postal Union

Executive In Session At Ottawa Settles Vexed Question

Ottawa, Ont.—The question of the amount to be paid countries carrying mail intermediate from origin and destination has been settled by the executive of the World Postal Union in session here. It was agreed to recommend to World Postal Congress which meets in Cairo next year, a modest reduction be made in the amounts paid to carrying countries other than nations in which the mail originated or to which it was designed.

The question has been a concern of the Union since its inception. Close uniformity in postal rates was also agreed upon. The universal rate is theoretically 25 centimes in gold. The allowable deviation above this was recommended as being reduced from 50 to 40 per cent. The allowable rate is below 20 per cent.

The delegates here are preparing the agenda for the World Postal Congress to be held in Cairo next year and will be in session for more than six weeks.

Central Wheat Production

Western Provinces Have Pledged Support To The Principle

Winnipeg, Man.—Governments of the three prairie provinces have pledged their support for the principle of curtailing wheat production or controlling exports for the purpose of stabilizing prices, and have agreed to co-operate with the Dominion Government in achieving such an objective. The proposals are contained in a wire to Premier R. B. Bennett, forwarded by representatives of the three provinces this week.

"It is a great step forward towards maintenance of the peace of the world," he asserted. "It does contain a reservation similar to the one contained in the Locarno Treaty. But, from my standpoint, it is not believe there is a 10-year-old child of average intelligence anywhere in the world who could fail, in event of war, to select instantly the aggressor."

Disease Is Depleting Herds

Strange Malady Killing Off Moose In Northern Manitoba

The Flat, Man.—A disease, unknown to trappers and Indians of the Grand Rapids country east of here, is killing off a large number of moose, according to word brought here by Valentine McKay. The malady has depleted the herds in the neighborhood of the head of Lake Winnipeg.

Caribou, on the other hand, have not suffered, according to bushmen. The caribou are said to be in good shape, and have plenty of feed. They are said to be in good shape, and have plenty of feed. They are said to be in good shape, and have plenty of feed.

HOPE TO REACH AGREEMENT TO LIMIT ACREAGE

London, Eng.—Hon. G. Howard Ferguson, Canadian High Commissioner in the United Kingdom and chief Canadian delegate to the wheat conference here, told the meeting that before committing his country to a policy of wheat acreage restriction, he must await the arrival of Prime Minister Richard B. Bennett, who is leaving Ottawa to attend the World Economic Conference opening June 12.

The threat to the success of the wheat restriction agreement, which is seen in the announcement from Sydney that Australia will not participate in an accord to limit acreage, failed to disturb the hopeful attitude of the delegates.

Stanley M. Bruce, the Australian High Commissioner, announced at the first formal session of the four-power conference that his government could not participate in a proposed international scheme for limiting production of the cereal.

The United States delegates are understood to take the view that Australia is bargaining for an arrangement whereby that country would not have to restrict production as drastically as Canada and the United States.

The harmony between Argentine and the other great wheat-growing countries, which developed at Geneva in the earlier discussions, became more apparent here as the Argentine spokesmen expressed a willingness to co-operate to the fullest extent in solving the question of world grain surplus.

JAPAN PROVING A MENACE TO BRITISH TRADE

London, Eng.—Japanese competition in world markets is creating alarm. Industrial federations are passing resolutions calling attention to prevailing conditions and both sides of the House of Commons echo the uneasiness.

The government already has given notice of the withdrawal of the West Africa colonies from the Anglo-Japanese trade agreement. This was done to enable these colonies to give preference to British goods.

A special committee of the federation of British Industries has submitted a report to the board of trade in which it is estimated that during the next 20 to 30 years Japan's population will likely increase by 15,000,000 to 20,000,000. Only a fraction of these reports states, can be fed out to Japan's domestic resources.

"It is inevitable," the report adds, "that competition must become increasingly keen and the danger of the year has been deliberately used to embark on a reckless national sales policy with disastrous results to British trade and industry in various markets of the world."

"It is inconsistent both with our own national policy of protecting British goods and the later-Imperial arrangements concluded at Ottawa that this Japanese competition should be permitted to reach the workers of British colonial markets without British action being taken to safeguard British interests in those markets."

In the House of Commons David Kirkwood, Scottish Labor member, asked what steps were being taken to protect British workers against the low-wage products of Japan. From the other side of the House Mr. W. Graham, Conservative member for South Kensington, declared that in Malaya, which previously was a British market, Japanese goods were being sold at four cents a yard enabling Japan to supply 75 per cent of the Malaya demand.

Favors Gold Standard

Prof. Gregory Urges Return To Gold By Nations Of The World

Vancouver, B.C.—The annual congress of the International Chamber of Commerce showed their first real burst of enthusiasm when Prof. W. Gregory, of Great Britain, urged the nations of the world to return to the gold standard. All attempts to manage a paper currency have only made the situation worse, Prof. Gregory declared. He said individual nations are unable to manage their currencies and fears others will make use of the opportunity to obtain special advantages.

The way to overcome this fear, the British representative told the congress, "is the name as overcoming fear of a lonely road—we must all go together."

Other speakers shared his view, but Elliot Wadsworth, of Boston, Mass., warned the congress to reason that the gold standard really is "99 per cent confidence and one per cent gold."

Mr. Wadsworth said he would prefer to emphasize balancing budgets and restoring to its pedestal the old maxim, "as good as a government bond."

Defective Ties Blamed

Raymond, Ont.—The coroner's jury inquiring into deaths of five persons, including Roderick Duthie, 11, Sydney that Australia will not participate in an accord to limit acreage, failed to disturb the hopeful attitude of the delegates.

Stanley M. Bruce, the Australian High Commissioner, announced at the first formal session of the four-power conference that his government could not participate in a proposed international scheme for limiting production of the cereal.

The United States delegates are understood to take the view that Australia is bargaining for an arrangement whereby that country would not have to restrict production as drastically as Canada and the United States.

Crop Conditions Promising

Ottawa, Ont.—Report on the grain crop conditions issued by the Dominion Bureau of Statistics recently, declares that the spring season is generally promising, a little more rain being very promising. General soil moisture conditions are particularly good, perhaps the best since 1928.

Christmas is only 13 days away.
 Shop now and avoid the rush. Also
 avoid the mail order catalogues.

There is still plenty of time to order
 your personal greeting cards. So our
 selections—and the price is only
 \$1.25 per dozen, complete with en-
 velopes and neatly printed with your
 name and address.

It is rumored that C.H. Nash and
 the driver of his car are being sued
 for unattended damages, arising out of
 the collision this fall on the highway
 near Cranbrook, B.C.

Warm, mild weather prevails this
 week. As a result ice-making at the
 rink is at a standstill.

THE CHRONICLE

All ladies interested in curling are
 requested to attend a meeting to be
 held in the Municipal office tonight
 (Thursday) at 7:30 p.m. sharp, before
 the show.

The minstrel show "When Cock is
 King" was held in the Farmers' Ex-
 change hall, Carbon, last night, and
 proved a real success. A full report
 will appear in our next issue.

Hungarian Partridge season closes
 next Saturday, December 15th.

A public meeting will be held in
 Carbon on Wednesday, December 12th
 under the Douglas System of Social
 Credit supporters. Speakers will in-
 clude Messrs. Palmer and McLean,
 and Mrs. Archie Kennedy, all mem-
 bers of the Douglas Social Credit So-
 cietarian, London, Eng. A.R. Chapwood,
 M.L.A. will act as chairman.

A. Melville Anderson, of Anderson
 & McLean, sight specialists, Calgary,
 will make his next visit to Carbon
 at McMillan's True Bone, Tuesday
 December 11th, morning only.

W. A. BRAISHER

Snicklefritz ----

He. Why do you call me "Snicklefritz"?
 She. Because every time you call
 you make a little progress."

Gentlemen: Can you go into any
 business more profitable than begging?
 Beggar: Well, sir, I'd like to open
 a bank, but I haven't got the tools.

Neighbor: Why did you send your
 son to the Air Force?
 Father: Because he was no earthly
 good.

A passenger in an airplane was far
 up in the sky when the pilot began
 to laugh hysterically.

Passenger: What's the joke?
 Pilot: I'm thinking of what they'll
 say at the asylum when they find out
 I have escaped.

When I was younger and in my prime
 I thought it great to have a dime;
 And so it gives me quite a pain
 To find myself that way again.

A hen is not supposed to have much
 common sense or tact.
 Yet every time she lays an egg she
 cackles forth the fact.

The watchdog barks, and ganders
 quack, and doves and pigeons coo.
 The peacock spreads his tail and
 squawks, plays squeal and roars and
 even serenades know enough to
 hush before they sing.

But man, the greatest masterpiece
 that Nature could devise,
 Will often stop and hesitate before
 he'll advertise.

PAUL'S SERVICE STATION
JOHN DEERE AGENT"...So that Our Visitors
will be Sorry to Leave"

"If we are going to invite people to this country,
 we must be honest with them. . . Courtesy costs
 nothing and is one of our greatest tourist assets
 . . . Let us so treat strangers within our gates
 that it will be easy for them to come, pleasant for
 them to stay, and difficult for them to leave."

RE. Hon. R. B. BENNETT, Prime Minister of Canada, to the Cana-
 dian Association of Tourist and Publicity Bureau, November 5, 1914.

Canada's tourist activities represent more than a great industry from
 which everybody benefits. They provide an opportunity to create what the
 Prime Minister has described as "that feeling of neighbourliness" which is
 such a vital factor in building up cordial relations within the family of nations.

For both these reasons, may I urge upon the people of Canada the im-
 portance of showing consideration, courtesy and honesty to guests of our
 country? Let us all do those little acts of kindness which count for so much
 when one travels in a strange land.

We have a beautiful country. We must keep it so. We want our visitors
 to travel highways free from disfigurement, walk the streets of cities that
 are orderly and clean, and find at the end of every day's travel an inviting
 spot to rest. Canadians should turn their attention now to the important
 work of preparing for next year's tourist season.

As a nation, we are advertising about the attractions of Canada as a
 holiday land. We must see to it that our guests return home with only the
 happiest recollections—and the determination to come back again and again.

Nor should we forget, in planning our own vacations, that there are
 beauties to discover and friendships to be made in our neighbouring pro-
 vinces. We live in one of the world's most glorious playgrounds—let us
 learn to know better the rich variety of its travel attractions.

R. J. Macnicola
